

Dix personnes réparties en cinq pôles de deux, sous le pilotage du Product Owner (Yassine El G)

Rôle	Membres	Résumé
------	---------	--------

Elarif est rattaché au pôle Design/Mobile (binôme avec Adam sur l'application) mais intervient

1.2 Couverture nominative

Chaque domaine est porté par un ou plusieurs responsables nommés, avec un backup identifié.

Remains	Responsible(s)	Backup
---------	----------------	--------

Product Ownership	Yassine	Elarif (transverse. vision produit)
-------------------	---------	-------------------------------------

Niveaux : expert · intermédiaire · débutant · aucune expérience.

IA · NLP / LLM / RAG

Compétence	Yassine	Elarif	Ibrahim	Cyril	Aaditya	Hamid	Nino	Adam	Oumar	Abderrahmane
React / Next.js										
Docker / Conteneurisation										
CI/CD										
Architecture logicielle										
UI / UX Design										
Réseau vétérinaire										

1.4 Justification de l’équipe

L’équipe a été constituée pour que chaque membre couvre un besoin réel du projet (IoT, Backend, IA, Mobile, Design, Cloud, Business). Trois membres sont co-fondateurs et promoteurs du projet : Yassine, Ibrahim et Elarif. Les profils clés : Yassine (3 ans NLP/LLM en production → Care Engine), Cyril (le plus expérimenté en embarqué, STM32/ESP32, projets IoT persos), Ibrahim (fullstack évoluant vers l’IoT, LoRaWAN), Nino (data engineer, ETL), Adam (designer + commercial, 3 ans freelance), Oumar et Abderrahmane (binôme Cloud/DevOps, même socle Epitech).
